Short Description

The hardcover edition of *Aviation Chicago Timeline* is a chronology tracing Chicago's pivotal role in the growth of aviation in the United States.

Description

Aviation Chicago Timeline is a chronology of aviation in Chicago starting with the first balloon ascension in 1855. The book examines Chicago's key role as a center for exhibition flying, as the epicenter for U.S. air mail, and as a major aviation transportation hub for over a century. *Aviation Chicago Timeline's* well-written text makes it suitable for the casual reader while its extensive notes and bibliography make it an essential reference tool.
